

Engineering Bursaries in Jersey

Geomarine is passionate about engineering. Engineers use any available knowledge to construct solutions to problems, and then shape the world by turning ideas into reality. Whilst engineering cannot compete with finance in the volume of jobs available in Jersey, it is able to provide a fascinating career to the few with the tenacity to succeed in it.

We would like to encourage those with the required academic ability and drive, in the hope that they bring skills back to the Island at some point in their career, whether straight from university or having travelled and seen how things are done in larger markets and organisations.

To that end, Geomarine is offering two levels of bursary intended to set up students with sufficient IT and text books. We will also commit further support as detailed under 'value' below.

Post 16 Bursary

To support a student, who has shown interest in a career in an Engineering or Geotechnical industry, and who will be studying AS/A levels or Btec Level 3 with a view to proceeding to related degree course.

Who can apply: Prospective first-year AS level students intending to continue to A level and degree.

Value: Single payment of up to £500.00 to be spent on IT and £100 for text books per annum for two years.

Geomarine will also commit to assisting with arranging or facilitating work experience and ensuring sufficient advice is given to help the student make further career decisions.

Judging Criteria and Timings

June/July. Candidates who are currently in year 11 should write to Phil Horsley at Geomarine. The letter should be marked 'Geomarine AS/A level Bursary'. It should state their career interests, GCSEs being taken and intended AS/A level courses.

September. Short listed candidates will be invited to Interview. Proof of grades achieved and acceptance on AS level courses will be required.

Geomarine Degree Bursary

To support a student who has taken A levels relevant to a career in an Engineering or Geotechnical industry and who has subsequently been accepted on a degree course accredited by ICE, IStructE, GeoSoc, IMechE, IET or JBM.

Who can apply: Final year A level students, on receipt of acceptance to university.

Value: Single payment of up to £500.00 to be spent on IT and £225 for text books per annum for up to four years.

Geomarine will also commit to mentoring, providing personal connections within the industry, assisting with arranging or facilitating work experience and ensuring sufficient advice is given to help the student make further career decisions.

Judging Criteria and Timings

June / July. Candidates in their A level year, should write to Phil Horsley at Geomarine. The letter should be marked 'Geomarine Degree Bursary'. It should state their career aspirations, A levels being taken and intended Degree courses.

September. Short listed candidates will be invited to Interview. Proof of grades achieved and acceptance to university will be required.
