

# Geotechnical Engineer

We are seeking to recruit an individual with an interest in geotechnical engineering and/or construction management to join us in our Guernsey office. The role includes the development, management and execution of a range of geotechnical and other civil engineering projects including slope stabilisation, rope access, site investigation, drilling, anchoring and piling. We deliver exciting and varied civil engineering projects with an emphasis on quality. For examples of our work please see [www.geomarine.gg](http://www.geomarine.gg).

Applications are invited from a broad range of backgrounds; the position would suit people who already have geotechnical experience, engineering graduates looking to further their career, or people with other industry experience looking for something different. Relevant experience and formal technical, engineering or construction management qualifications are desirable, but we have an excellent team who can provide all the necessary support to grow into the role. The role and any necessary training can be adapted to suit the right candidate, and the remuneration package will be adjusted accordingly. Most importantly, we are looking for candidates with the following attributes and mind-set:

- Solid team ethos with a desire to work together to produce projects we are proud of
- Ability to get on with a broad range of people and communicate effectively in written and verbal form
- Energy and enthusiasm for a varied, interesting role mixing the office and outdoors
- Strong commitment to ethical, environmental and health & safety standards
- Willingness to learn and adapt to broad operational and technical demands
- Desire to develop a career in civil engineering in the Bailiwick
- Inquisitive and technically minded with good analytical skills
- Ability to combine hard work with good humour
- Diligent, organised, honest and reliable

Please apply by sending a CV and brief description of your experience to [recruitment@geomarine.gg](mailto:recruitment@geomarine.gg). Alternatively, please call if you would like an informal chat or meeting to find out more about Geomarine and to see if the role might be right for you. All applications are treated in the strictest confidence. Geomarine is an equal opportunities employer and all applications are welcome.
